Summary

A passionate React.js/Next.js developer focused on building fast, responsive, and easy-to-use user interfaces. I have a keen eye for user experience, writing clean, maintainable code, and improving performance. I am seeking a full-time position within a product development team to deliver tangible impact and solve complex user problems.

Professional Experience

Freelancer

Front End Web Developer (2/2023 - Now)

- Developed and implemented engineering standards for web development.
- Implemented responsive design principles to enhance user experience.

Market Makers

Technical Support Specialist (12/2022 - Now)

- Provided technical support to troubleshoot systems.
- Documented troubleshooting steps and solutions for future reference.

Attijariwafa Bank

Loan Officer (7/2022 - 12/2022)

- Trained and mentored new sales representatives.
- Collaborated with cross-functional teams to optimize sales processes.

Projects

Aura Beauty [🔗](#)

E-Commerce Website

A full-featured e-commerce platform built with Next.js for a fast and SEO-friendly experience. I implemented Redux Toolkit for efficient state management and integrated Supabase to handle all product and order data. The front end was styled with Chakra UI, featuring smooth GSAP and Framer Motion animations to enhance the user experience.

Pop Movie [🔗](#)

Movie Website

A dynamic movie app built with React that integrates with the TMDB API. It features smooth navigation with React Router, and performance is optimized with code-splitting and infinite scrolling.

Five Palm Jumeirah [↗](#)

Landing Page

A high-fidelity hotel website crafted to provide an immersive user experience. Built with Next.js, the site features seamless navigation and a visually-rich design. I used Framer Motion and Swiper.js to create engaging animations and interactive carousels, while React Player was integrated for video content.

MeetUs [↗](#)

Login Page

A secure login page developed using Next.js, with its design meticulously implemented from Figma. The page is integrated with an API for user authentication, providing seamless and secure access to the admin dashboard.
